

## Help Stop Tax-Funded Abortions in Congress

This newsletter helps you make one contact a month to policy-makers to protect innocent human lives.

### Summary

This month we ask you to contact **your** U.S. Representative in Washington, D.C., to **prevent tax-funded abortions in S. 1200**, a bill to make certain changes to federally-funded American Indian health programs. See the sample message below.

### Background

In the near future the U.S. House of Representatives is expected to take up S. 1200, a bill to make certain changes to American Indian health programs. Pro-life organizations, including Texas Alliance for Life, support language in the Senate version of the bill to permanently prohibit the Indian Health Service from providing abortions (except to save the life of the mother, or in cases of rape, or incest of a minor). Some years ago, this federal program was paying for abortion on demand. This practice was curbed, but it might resume again under some future president, unless Congress includes suitable language to S. 1200. The Senate passed the bill with the pro-life language on February 26.
