SPEAKER

Abby Johnson is the founder of And Then There Were Nonepro-life outreach, and a former Planned Parenthood director. During her eight years with Planned Parenthood, Abby quickly rose in the organization's ranks and became a clinic director. She was increasingly disturbed by what she witnessed.

Abortion was a product Planned Parenthood was selling, not an unfortunate necessity that they fought to decrease. Still, Abby loved the women that entered her clinic and her fellow workers. Despite a growing unrest within her, she stayed on and strove to serve women in crisis. All of that changed on September 26, 2009 when Abby was asked to assist with an ultrasound-guided abortion. She watched in horror as a 13 week baby fought, and ultimately lost, its life at the hand of the abortionist. At that moment, the full realization of what abortion was and what she had dedicated her life to washed over Abby and a dramatic transformation took place.

Today, Abby travels across the globe sharing her story, educating the public on pro-life issues, advocating for the unborn, and reaching out to abortion clinic staff who still work in the industry. She is the founder of And Then There Were None, a ministry designed to assist abortion clinic workers out of the industry. To date, this ministry has helped over 150 workers leave the abortion industry. Abby lives in Texas with her husband and five precious children.
