Austin -- A coalition of pro-life organizations will be holding a news conference on Monday, March 16, 2015 at 1:00 PM in the Speaker's Committee Room (2W.6) in the Capitol.

The organizations will highlight the coalition's pro-life agenda for the 84th Legislature. We have invited several members to speak about their pro-life bills.

"This is an excellent team of legislators working to advance life in the House, and Texans for Life is honored to work with them to further protect moms and babies and reform end-of-life care in Texas," said Kyleen Wright, President of Texans for Life.

"We look forward to working with this coalition of organizations and these legislators to protect innocent human life," said Joe Pojman, Ph.D., executive director of Texas Alliance for Life. "We owe it to the babies, mothers, and vulnerable patients to work together to pass sound public policy that will protect and save lives in Texas."
